

## **IMPORTANT ANNOUNCEMENT - AGROSYM 2020**

Dear AGROSYM 2020 participants,

Due to an uncertain COVID-19 situation in Bosnia and Herzegovina and world-wide, which results in a very difficult travel restriction for most countries and the fact that there is no definite end in sight, with a careful consideration in all aspects, the Organizing committee of AGROSYM 2020 has decided to move towards the organization of a fully **on-line AGROSYM 2020 digital event**, in lieu of an in-person event, which will be held on **October 8-9, 2020**.

The number of daily infections in Bosnia and Herzegovina became very high in previous days and the Organizing committee have taken this decision taking into consideration the health, safety, and security of its conference attendees and community as its top priority.

The virtual event will be held at the University of East Sarajevo, Bosnia and Herzegovina. The program will include keynote talks by invited prominent scientists as well as online oral and poster presentation for AGROSYM registered participants. However, please keep in mind that oral and poster presentations must be in English only.

Authors with posters are requested to prepare e-posters which will be accessible at the conference virtual poster hall during conference days. The deadline for e-poster submission prepared according to the instructions for authors is 30<sup>th</sup> of September.

The participants with paid conference fee will be able to access all the virtual presentation talks in each session, as well as to visit the virtual poster hall via preliminary provided participant ID and codes.

The abstracts will be published in the Book of Abstract and the full papers in the Proceedings Book / selected journals.

All virtual participants will receive material bag with printed participation certificates to their home / work address. Also, participations certificates will be send as PDF file via e-mail.

We look forward to bringing together AGROSYM participants in this new virtual format to learn, connect and exchange knowledge together.

Stay tuned for more details to come.

Sincerely,

Prof. dr Sinisa Berjan  
General Secretary of AGROSYM 2020

And

Prof. dr Nouredin Driouech  
On behalf of the Organizing committee
