- ❑ **Institute of Agricultural Economics, Serbia**

About International Agriculture Symposium "AGROSYM"

AGROSYM is, since sixteen years, an annual platform for international scientific discussion on agriculture, food, rural development, environment and forestry. AGROSYM represents a good opportunity to exchange ideas, to strengthen existing and to create new academic networks, and to foster dialogue between the academia, public institutions, the private sector and civil society organizations on the recent global and regional trends in the agro-food sector. Multidisciplinary results reported during AGROSYM will contribute to the dissemination of knowledge and good practices to all actors of the agro-food chain (e.g. farmers, extension agents, researchers, policy makers) as well as the general public about the importance of agriculture and food science, one of the most important strategic areas in many national research strategies.

The 15th edition of the International Agriculture Symposium "AGROSYM 2024" made an important contribution to the agriculture practice in different areas. During the four-day Symposium (10-13 October, 2024), around 800 contributions were presented to 850 participants representing over 80 world countries. AGROSYM 2024 was held in a hybrid format, in-person and virtual via the ZOOM platform.

AGROSYM 2025 will deal with the following thematic areas:

- 1 Plant production**
- 2 Plant protection and food safety**
- 3 Organic agriculture and agroecology**
- 4 Environment protection and natural resources management**
- 5 Animal husbandry**
- 6 Rural development and agro-economy**
- 7 Forestry and agro-forestry**

Official Symposium language:

The official Symposium language will be English.

Important dates:

Registration and submission of abstracts	30 June 2025
Notification of abstracts acceptance	10 July 2025
Submission of full papers	10 July 2025
Notification of full paper acceptance	20 July 2025
Detailed programme	15 September 2025
AGROSYM 2025	2-5 October 2025
